DESCRIPTION OF NATURE, PURPOSE AND BENEFICIARIES OF THE PROJECT:

The proposed project is for a Coastal Permit with hearing for Caltrans emergency repairs to Hwy 1 at post mile 36.36. Roadway damage consists of a slip out caused by recent rain events. Proposed repairs include constructing a 65-ft long retaining wall.

EXEMPT STATUS:

Categorical Exemption Section 15301 for minor repairs to existing infrastructure.

REASON WHY THIS PROJECT IS EXEMPT:

The proposed project is categorically exempt from the provisions of the CEQA Guidelines pursuant to the Provisions of Title 14 of the California Administrative Code, Section 15301. The proposed project, CPH25-0003, qualifies for exemption under the California Environmental Quality Act (CEQA) Guidelines Section 15301 (14 CCR § 15301, "Existing Facilities") because it involves the repair and minor alteration of an existing public roadway facility with no expansion of use. Specifically, the work consists of constructing a 55-foot-long by 12-foot-high gabion retaining wall along the southbound side of Highway 1 at Post Mile 36.36 to repair a slip-out caused by winter storms. The project is limited to stabilizing the existing roadway embankment, will not increase capacity, and does not involve expansion of the roadway footprint beyond what is necessary for slope stabilization. All work will occur within Caltrans' existing right-of-way using standard repair methods, and the project does not include new uses or facilities that could result in environmental impacts.

There is no reasonable possibility that the project would have a significant effect on the environment. No exceptions listed under Section 15300.2 apply.

This Notice of Exemption is filed pursuant to the provisions of Section 15062 of the State CEQA Guidelines.
