DESCRIPTION OF NATURE, PURPOSE AND BENEFICIARIES OF THE PROJECT: The proposed project is to stabilize the footing of the center pier of a bridge along Sweetwater Springs Road over Porter Creek (38.541496; -122.926258) in unincorporated Sonoma County, California. The existing state of the bridge cannot support traffic and was closed by the County. A Bailey Bridge was placed over the bridge in early 2025 so traffic can continue using Sweetwater Springs Road, although this is a temporary measure until the bridge repair is cleared for construction.

EXEMPT STATUS: Categorical Exemptions Section 15301 (c) for Existing Facilities, Section 15302 for Replacement or Reconstruction, and Section 1530 J (c) for repair or minor alteration of existing highways and streets, sidewalks, gutters, bicycle and pedestrian trails, and similar facilities.
Declared Emergency Sec.15269(a)) Government Code section 8625

REASON WHY THIS PROJECT IS EXEMPT: The project is statutorily exempt under Section. 15269 (a) to maintain, repair, restore, demolish, or replace property or facilities damaged or destroyed as a result of a disaster in a disaster-stricken area in which a state of emergency has been proclaimed by the Governor pursuant to the California Emergency Services Act. The proposed project is categorically exempt from environmental review pursuant to Sections 15301 [Existing Facilities] and 15302 [Replacement or Reconstruction] of the Guidelines for Implementation of CEQA. Section 1530 J (c) exempts the repair or minor alteration of existing highways and streets, sidewalks, gutters, bicycle and pedestrian trails, and similar facilities. No exceptions listed under Section 15300.2 apply. There is no reasonable possibility that the project would have a significant effect on the environment for CESA listed species.

This Notice of Exemption is filed pursuant to the provisions of Section 15062 of the State CEQA Guidelines.
