BLD25-5389	Issued	Building Permit No Plan Check	9/5/2025	09/05/2025	4016 Old Barn Rd Healdsburg [HEA]	Removal of an existing 50-gallon liquid propane (LP) gas water heater located in the laundry room of the residence. In its place, two Navien tankless water heaters 199,900 BTU each will be installed on the exterior of the home, connected to the existing water distribution system to provide on-demand hot water. A new medium-pressure gas line (operating at 5 psi) will be installed, running approximately 100 feet from the service riser to the new tankless units, where it will terminate with a gas regulator reducing pressure to 11 inches water column (WC) for safe operation. Additionally, a hot water recirculation loop will be implemented, controlled internally by the tankless water heaters' built-in system to ensure efficient water circulation and minimize waste. All work will comply with local building codes, including proper venting, and safety standards for gas and plumbing installations.	088-240-021	\$374.76	\$0.00	09/01/2025 - 09/30/2025

BLD25-5622	Ready for Plan Check	Building Permit With Plan Check	9/15/2025		13940 Village Ave Healdsburg [HEA]	Owner is performing work along the shoreline of Russian River to resolve a violation. The violation resulted from hand-work Owner implemented to replace a deteriorating wood stairway and boatramp with a stairway and ramp consconstructed from metal gabion baskets filled with natural river cobbles from the river bed. Owner obtained CDFW and RWQCB permits to remove the gabion baskets, restore the pre-existing channel bank slope, and install new replacement stairway and ramp structures. The replacement structures are single piece pre-fabricated aluminum stairway and ramp (2 pieces) that will be fastened to new steel pipe piles driven into the ground and extending above finished grade 6-9". The owner obtained a geotechnical investigation report and geotechnical-structural design recommendations from Miller-Pacific Engineering group including pipe pile anchoring construction details and hardware details for fastening the pre-fab pieces to the pipe pile caps. The work will be performed by hand with hand tools carried to the work location on foot. There is no construction access for equipment. There is no excavation or stockpiling or production of exposed soil, etc. The Owner applied for a Zoning Permit and a Grading Permit. All permit issuance is pending approval of a Building Permit.	088-120-023	\$1187.21	\$17233.00	09/01/2025 - 09/30/2025

BLD25-5826	Awaiting Applicant Response	Building Permit With Plan Check	9/24/2025		1974 Middle Two Rock Rd Petaluma [PET]	The proposed project is to convert the existing barn located at 1974 Middle Two Rock Road (APN 021-070-037) into a workshop accessory to the residence. The structure will remain non-habitable and used solely for workshop purposes, such as equipment storage, small-scale repairs, and personal projects. Scope of Work: • Conduct structural assessment and complete any necessary upgrades to meet current building and safety codes. • Install or upgrade electrical service to support workshop lighting and standard power tools. • Provide proper ventilation and insulation as required by code. • Maintain exterior appearance consistent with existing agricultural/residential character. • No kitchen, living, or sleeping facilities will be installed. • Plumbing limited to a half bathroom (if permitted) for workshop use only. Intended Use: The workshop will serve as a private, accessory structure to the primary residence. It will not be used for commercial operations, rental occupancy, or as a dwelling unit.	021-070-037	\$0.00	\$0.00	09/01/2025 - 09/30/2025

DEM25-0334	Issued	Demolition Permit	9/11/2025	09/11/2025	6560 Rutgers Dr Twin Hills [TWI]	SFD, Demo Chimney stack, remove wood burning fireplace and gasoline/ducting. separate BLD for roof repair and sheetrock repair. Demo chimney stack, will require protection of the existing roofing as well as protection of the deck and the erection of scaffolding to allow for safe access to perform the work. 3 men 1 day totaling 24 hours. \$3,900 Demo interior fireplace involves protecting the carpet and surrounding spaces with plastic and drop cloths to prevent dust migrating throughout the home. Carefully remove wood burning fireplace, tile surround and mantle, the sheetrock and framing for the chase and ducting of the fireplace. We will remove the entire ducting as well. 3 men 1 day totaling 24 hours. \$3,900 Plumbing: Remove gas line and cap off at the nearest line by the fireplace area. 1 day totaling 8 hours. \$1,300 Rebuild: consists of light framing and backing installation, this will allow for the new sheetrock and corner metal to finish properly with the existing framing and sheetrock. Includes floor repair to remove any depress that might be present once the fireplace and tile has been fully removed. Includes installation of sheetrock, corner metal, and baseboard trim to match. 2 men 1 day totaling 16 hours. \$2,600 Taping and texturing: New sheetrock will be finished to match existing. The beam that carries through the fireplace will be completely refinished to allow for the cleanest result. Texture will be applied to match existing knock down texturing. Estimated based on 20 hours. \$2,600 Painting: paint will be applied to the entire walls that received new sheetrock finish. This will keep the finishes clean and prevent any spotting or flashing. This includes one primer coat, and two body coats of color. We will color match the existing paint finishes but if the client wants, we can apply a new color or sheen. 2 men 1 day totaling 16 hours. \$2,600 Haul off and Disposal. \$1,040	063-300-008	\$252.08	\$0.00	09/01/2025 - 09/30/2025
DEM25-0335	Awaiting Applicant Response	Demolition Permit	9/12/2025		555 Sparkes Rd Twin Hills [TWI]	We are going to remove the one car garage bay at the upper driveway toward Baker Lane. The larger structure the one bay garage is attached to is the original garage, now a rec room. The one bay garage was added later. The shared wall between the two spaces has exterior siding on the side in the one bay garage. We are going to remove all 3 exterior walls of the one bay garage (East, West, South walls). As such, the bay door facing the street and the standard door facing the backyard shall be removed. The shared wall facing North shall remain as part of the existing original garage. We will remove the roof over the one bay garage. The roof on the one bay garage is a different material than the shingle roof on the original garage. We will remove any framing as well. The concrete floor/foundation shall not be removed.	063-212-020	\$0.00	\$0.00	09/01/2025 - 09/30/2025

WEL25-0329	Resubmittal Requested	Well Permit	9/10/2025		1565 Baird Rd Rincon Valley [RIN]	Drill a replacement well, Class 1 with 5" PVC casing & 50' annular seal. Once new well has been constructed and activated destroy the existing well. Destruct method: Remove the pump equipment from the well and cut the steel casing off approximately 3' below grade. Fill the 6" steel casing with 3/8" pea gravel from the bottom at approximately 91' below grade to 33' below grade and use a mechanical Mills Knife perforating tool to perforate the steel casing from 33' to 3' below grade. A neat cement slurry is to be pumped into the well via a tremie pipe to seal the well from 33' below grade to just over the top of the steel casing approximately 3' below grade. Native soil is to be used to backfill the remaining hole to final grade.	029-040-043	\$790.17	\$0.00	09/01/2025 - 09/30/2025
